FOR IMMEDIATE RELEASE  
April 3, 2017

## GEEKSULTANT NOW OFFERING CLOUD SERVICES

### Local I.T. Provider Expanding Services Offering

Lawrenceville, GA, April 3, 2017– In a partnership with Cirracore, an Atlanta, GA based Enterprise class cloud provider, Geeksultant is now offering Enterprise level Cloud Hosting Services that are available immediately to existing and new customers.

*Kai Guettner, Owner of Geeksultant, had this to say, "The Cloud is the future of information technology data centers. On premise closets and rooms converted to server rooms are a thing of the past ..."*

#### Available Cloud Services

- **Enterprise Cloud (Cores, RAM, Storage, OS)**
  - Your own virtual private datacenter. Private Dedicated Resource Pools of Cores, RAM and Storage in a VMware vCloud Datacenter.
  - Three Tiers of Performance Storage Available.
- **vCloud Connector**
  - Connect from your local VMware environment to burst or attach cloud resources. Link your internal cloud with Cirracore's Enterprise Cloud so you can manage them as a single hybrid environment and transfer workloads back and forth.
- **Cloud Replication**
  - Replicate VMware environment in near real-time for DR. Software-only and hardware-agnostic – replicate from any type of storage to any type of storage. Test failover without affecting your production environment.
- **Cloud IaaS for Service Providers**

- Wholesale managed Cloud Infrastructure as a Service (IaaS) solutions for Network, IT Services and Hardware providers for resale to their enterprise customers.
- **DaaS (Desktop as a Service)**
  - VDI Virtual Desktops
  - Citrix Service Provider
- **RaaS (Recovery as a Service)**
  - DR – Disaster Recovery (Replication)
  - Backup (Local)

## Compliance

- Fully meet PCI DSS v3.1 requirements, ensuring retailers handling sensitive payment data for ecommerce sites and brick-and-mortar locations are using highly secure infrastructure environments.
- Fully compliant with the relevant sections of the Health Insurance Portability and Accountability Act (HIPAA) Security Rule and conform to the Statement on Standards for Attestation Engagements (SSAE) No. 16 SOC 1 Type 2, Reporting on Controls at a Service Organization.

## Infrastructure

Over 325 Carrier and MPLS providers are directly connected and we are carrier neutral and can connect your enterprise to your existing network and leverage existing carrier and MPLS provider relationships and contracts.

With primary resources located in the Atlanta, GA Equinix Data Center at 56 Marietta Street and a fully compliant backup/DR facility in the Dallas, TX Equinix Data Center, not only can we provide Cloud based DR for your business, but we can also fully host your primary and backup environments in the Cloud.

*“If you are considering expanding the strength of your resources of problem solvers for your IT systems. You certainly should be considering the services that Geeksultant has to offer.”*

*Steve Bracken, Operations Technology Director, NCI*
